Proposed Maintenance of well access road by EQT Production Company

Well – Hardy 35 (213721)

API – 47-039-05275

Well location: This well is located in Portercamp Br

Proposed work: The access road has been narrowed to a foot path due to slip. The current plan of work is to open that access road up to vehicle traffic. The upper side of the road (hill) will be excavated removing necessary dirt and rock and placed on the lower side of the current access road to fill back an adequate area for service trucks to gain access to the well location.

Work start date: 3-11-13 weather permitting

Expected work timeline: To complete the work it is expected to take 1 full day, no more than 2 days are expected at this time.

Equipment to be on location: Track hoe and 450 dozer.

Contractor performing work: Big Justice cell 923-3938

Person of Contact: Chuck Shafer 304-373-3152
