

WEST VIRGINIA TROPHY FISH CITATION PROTOCOL

The trophy fish citation program was initiated to recognize outstanding fishing achievement. Beginning in 2022, the citations were redesigned with new artwork. The color fish illustrations on the citations are original artwork and copyrighted by artist Joseph Tomelleri. Also, anglers will only receive one citation per calendar year for each species for which they applied. This citation will list the number of trophy citations the angler has caught of that species during the calendar year. Applications to register a trophy fish can be obtained from the WV Division of Natural Resources website at www.wvdnr.gov.

REPORTING PROCEDURES

- Fish must be legally caught with rod and reel by a licensed angler in West Virginia.
- Common carp legally taken by bow and meeting minimum size requirements qualify for a trophy citation.
- Fish must meet or exceed the minimum length.
- Fish must be measured in the presence of a witness who must sign the application form, or fish must be measured, and a photograph must accompany the application. Measure total length of fish to nearest 1/8 inch from tip of snout to end of tail. **See Measuring a Fish in the current WVDNR Fishing Regulations for proper measuring technique.**
- A clear side view photograph of the fish is desirable.
- Nonresidents and residents are eligible for trophy fish citations.
- Applications must be submitted within 60 days of the date of catch.
- Mail to: DNR Wildlife Resources | 112 California Avenue | Charleston, WV 25305
